

Where HR Meets Healthcare. Where Compliance Meets AI.

Christine Cunningham is an HR and AI transformation strategist with 20 years of corporate HR experience and a singular focus: helping small healthcare practices build the compliance infrastructure their medical training never covered. As the Founder and Principal Consultant of ACE HR Consulting, she works exclusively with dental practices, chiropractic offices, physician groups, mental health practices, and home health agencies, using the proprietary **ACE Method (Assess, Customize, Execute)** and AI-powered systems to deliver enterprise-quality HR at small-practice prices. Her core message: *You were trained to heal. Let AI handle the filing cabinet.*

SIGNATURE TALK

Leveraging AI to ACE HR in Healthcare

18 – 60 min · Keynote / Workshop / CE Session · Healthcare + HR Conferences

Most small healthcare practices are operating in two regulatory worlds with no systems built for either. This talk gives practice owners a practical, memorable framework for fixing HR, using AI as the accelerant.

AUDIENCE TAKEAWAYS

- ◆ Why running HR without a system is as risky as treating a patient without a chart
- ◆ The three HR knowledge gaps costing small practices thousands every year
- ◆ How to triage HR risk like a clinician, critical, urgent, and routine
- ◆ Four ways AI is transforming small healthcare HR right now
- ◆ The ACE Framework: your prescription for HR that actually works

WHAT AUDIENCES SAY

"So true, Christine! This Knowledge Gap causes so much stress for doctors. We need AI to handle the 'busy work' of compliance so they can have a calm mind to focus on their patients. Using technology to protect the Human Heart is the best way forward!"

— Manikanda Prabu · AI Ethics & Wellness Advisor

"Sooooo FIRE!"

— Dr. Wilma Ann

"Excellent!!!"

— Marsha Tate

"Great presentation."

— Tosin Pickett

"This is awesome!"

— Lorna Perez

"This is so good."

— Summit Attendee

"Thank you for the great information!"

— Suprina Burton
